

22nd FIAP Nature Biennial 2024 Germany

Overall Winner

Odette Bretscher
Nature Trophy

Welcome to the FIAP Nature Biennial 2024 catalogue, where the beauty and majesty of the natural world is captured in every image by photographers from around the world.

The FIAP Nature Biennials not only rewards the technique and creativity of our participants, but also encourages a greater understanding and appreciation of the natural world around us. Each photograph tells a unique story and reminds us of the need to preserve the biodiversity and ecosystems that sustain life on our planet.

I would like to express our thanks to all participants for sharing their talent and passion for nature photography. I also extend our appreciation to the organisers Norbert and Karin Heil. Without their commitment and enthusiasm this Biennial would not have been possible. Last but not least, I would like to thank the jury for their dedicated work in selecting the best images

After the results and the winning images had been published, it had been detected that some of these images had been manipulated and did not comply with FIAP Nature photography regulations.

The FIAP Board decided to check the images submitted by the Federations ranked in the first places list in both sections. All images received were carefully checked by the Director of the Ethics Service. As a result of this check many images were found not to comply with the regulations. Observed images or images for which the original files have not been submitted have been removed from the Biennial.

Finally the winner of the FIAP World Cups in both sections was Italy. This federation also won the Great Prize "Odette Bretscher".

Director of the Biennials Service

Bienvenue dans le catalogue de la Biennale FIAP de la Nature 2024, où la beauté et la majesté du monde naturel sont capturées dans les images des photographes du monde entier.

Les Biennales de la Nature de la FIAP ne récompensent pas seulement la technique et la créativité de nos participants, mais encouragent également une plus grande compréhension et appréciation du monde naturel qui nous entoure. Chaque photographie raconte une histoire unique et nous rappelle l'importance de préserver la biodiversité et les écosystèmes qui soutiennent la vie sur notre planète.

Nous tenons à remercier sincèrement tous les participants d'avoir partagé leur talent et leur passion pour la photographie de nature. Nous exprimons également notre gratitude aux organisateurs, Norbert et Karin Heil. Sans leur engagement et leur motivation, cette biennale n'aurait pas été possible.

Enfin, nous tenons à remercier le jury pour le travail méticuleux qu'il a accompli en sélectionnant les meilleures images.

Après la publication des résultats et des images gagnantes, il a été détecté que certaines de ces images avaient été manipulées et ne respectaient pas les règlements de la photographie Nature de la FIAP.

Le Conseil de la FIAP a décidé de vérifier les images soumises par les fédérations classées aux premiers rangs dans les deux sections. Toutes les images reçues ont été minutieusement vérifiées par le Directeur du Service d'Éthique.

À la suite de cette vérification, de nombreuses images ont été jugées non conformes aux règlements. Les images observées ou celles pour lesquelles les fichiers originaux n'ont pas été soumis ont été retirées de la Biennale.

Enfin, le vainqueur des Coupes du Monde FIAP dans les deux sections a été l'Italie. Cette fédération a également remporté le Grand Prix "Odette Bretscher".

Organisation / Judging

Chairman: Norbert Heil, APSA, MPSA, EFIAP/b
Helping Hands: Karin Heil

The judging was held 6th July 2024
in Filderstadt, Germany

The 22nd FIAP Nature Biennial was held in Filderstadt Germany. I want to thank Luis Franke for the upload system and organization and help. As well the judges, Romain Nero, Jef Lemmens and Howard G. Tate for their excellent work. In total 33 countries have entered the biennial and I hope next time the number could be increased. For the winner it is always a pleasure for those who get no award, I hope they try next time a little bit harder to overtake the others.

I just want to invite you to our exhibition of the 22nd Nature Biennial in Filderstadt. The exhibition opens 25th August and closes 22nd September.

Chairman Norbert Heil EFIAP/b, APSA, MPSA

Judging Panel:

Romain Nero, EFIAP/d1, HonEFIAP, Luxembourg
Jef Lemmens, EFIAP/d3, HonEFIAP, Belgium
Howard G. Tate, MA, ARPS, AFIAP, HonPAGB, England

Like my fellow esteemed judges, Jef Lemmens and Romain Nero, I was honoured to be asked to judge the 22nd FIAP Nature Biennial 2024 hosted by Germany and I speak for all the three judges concerning the quality and variety of images presented for judging.

Judging of the print entries was our first pleasurable task and we were surprised and pleased by the images presented for us to consider in our deliberations. Subjects ranged from minuscule animal life to gigantic jaw dropping scapes depicting the full range of nature photography. Print quality was generally excellent and it was obvious that the authors were experts in the craft of capturing and processing very impressive nature images and we saw the best that nature photographers produce throughout the world.

Following on from the prints we then deliberated on the digital images submitted by countries throughout the world. Once again, we were impressed with the quality of the photographs and the expertise and ingenuity of the individuals who had captured the images.

Selection of the top images turned out to be a smooth process with all 3 judges being in tune when it came to deliberate which images should be amongst those awarded. Those authors who achieved awards can justifiably be proud of their achievements as they were up against strong competition.

We would like to thank Norbert Heil for the professional and problem free manner in which he ran the judging sessions with the help of his wife Karin. In addition we would like to thank Norbert and Karin for their hospitality over the judging weekend which made our task even more pleasurable.
